

Please help to save Katyusha!

Thank you for paying attention to this appeal and reading it now.

On behalf of Katyenka's parents her aunt Tetyana is calling for your help.

'It never rains but it pours' they say.

A severe test has already befallen them. In June 2011 an accident happened to their elder daughter. The girl fell out of the third floor's window and it's a marvel that she survived. Having got a lot of spine injuries, she was operated on and two very expensive titanium constructions were implanted into her spine. The family had overcome all the hardships without anybody's help. They had spent all their savings on their elder daughter's treatment, having borrowed a lot of money from the bank.

Katya's family resumed their daily routine. The doting parents brought up their two daughters, planned their future, dreamt and very happy to live together.

But everything changed in their life on October 6, 2011. Another accident happened to their younger daughter Katya. 'As a bolt from the blue', bad news came for them. Everyone was shocked by Katya's diagnosis: acute lymphoblastic leucoma (leukaemia), cancer of white blood cells.

Katya is only 3 years and 9 months old. It's high time for her to play, sport, explore the world. But the illness changed her life. This merry lively "bell" has faded away and turned into a withered autumn leaf. Katya can't walk, her joints became inflamed, the kidneys increased, the blood pressure is constantly high. Kate is like an enchanted princess and her life is like a terrible fairy tale.

But our girl is a real fighter. She almost got used to droppers, injections and other necessary but painful procedures. You see, the most severe struggle is waiting for her in the future.

Katya is taking a course of the protocol chemotherapy ALL IC-BFM-2002 at the children's onkohematology department of the Donetsk V.K. Gusak Institute of emergency and reconstructive surgery. The first course of the treatment will be long, keeping Katya and her mother at the hospital for 8 months. The treatment is very expensive. Nobody can foretell the future. We don't know how much money the treatment will cost. It's clear that a lot of money will be needed. The family doesn't have money. All their savings were spent on their elder daughter's treatment.

Priests say that a lot of people will be saved through these children's sufferings.

I'm addressing to everyone whose heart is beating.

Help us to save the child, please. Katya needs money for her treatment.

The following current accounts have been opened for those who wants to donate to help the girl:

The information is available on tel:

mother Olena 0952114925

father Oleksandr 0668604928
